

I'd like to share my employment success story with you! I was a Nanny for a local family and I took care of a 2 year old boy. But while I loved my job, I wanted to find a more stable income. So when I was given a recommendation for Options Employment Works Program, I took the opportunity. They helped me make a plan, and encouraged me to follow through. They guided me through applications and helped me gain confidence for interviews. I secured a full-time job with a manufacturing company, and I'm very pleased with what I do. I now get to participate in a fun work culture that promotes qualities I appreciate and engages in enjoyable competitions. Some of my favorite things about working for this company are the treats, goodies and people I work with. For now I plan to stay with this company and see where it takes me. For all those who come after me I wish you the best. Good luck!
